

SLIMdri®

Optimize Space and Energy

SLIMdri meets ADA compliance and your budget. It's surface-mounted, highly efficient design saves space and energy without compromising the user experience.

Its universal voltage simplifies installation from the start. The on/off heating control allows building owners to control costs and comfort, dry after dry.

Users will appreciate the touchless sensor operation. The antimicrobial technology¹ can also help promote a cleaner environment.

Slim down on your footprint and costs on your next restroom project.

ADA Compliant

Surface-mount installation and design ensure compliance for walkways and pathways.

Energy Efficient

Uses up to 80% less energy than conventional hand dryers.

Universal Voltage

Voltage extends from 110–240 V to adapt to any facility.

Cleaner Environment

Antimicrobial technology protects the treated surfaces on the dryer by inhibiting the growth of bacteria, mold and fungus that can cause stains, odors or deterioration.

Flexible Settings

On/off heat control allows customizable comfort and energy savings.

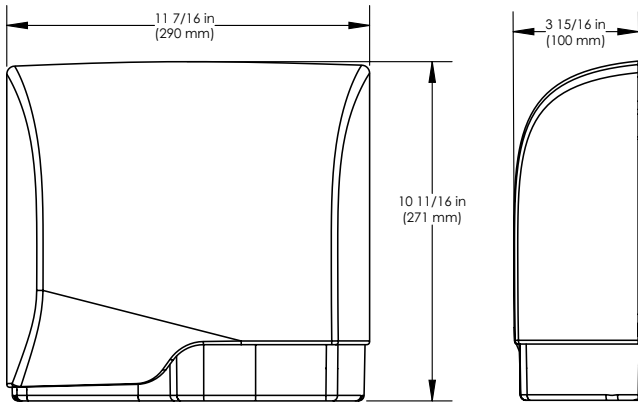

Compact Size

Slim profile optimizes space within the restroom.

Adjust for Comfort and Efficiency
