Where Vision Turns Into Reality

We advance our products for our customers and their patrons. We're not about innovating for innovation sake or aim to be first for the bragging rights. There will always be another way to improve the user experience and maximize the restroom space. We've solved those scenarios in the past (quieter, faster dry time, ergonomic design, ADA compliant and hygienic). We know we'll do it again and outsmart our previous solutions. Our vision becomes a reality once it's in arm's reach for you and your users.

High-Speed Hand Dryers

World Dryer's modern high-speed hand dryers offer the features that matter most to improve the user experience and maximize the restroom space. Often those solutions involve quieter sound operation, faster dry times, energy-efficiency, ergonomic design, ADA compliance, and hygienic technologies.

VERDEdri® – High Speed, Energy Efficient ADA Compliant Hand Dryer with HEPA filter

Next-gen VERDEdri leads in sanitation, efficiency, and sound quality. It dries hands in as little 12 seconds, while only using 3.16 watts-hrs and operating 30% quieter. The HEPA filter captures 99.97% of particles, 0.3um or larger. From there, the touchless sensor ensures a clean and confident user experience.

SMARTdri® Series – High Speed, Energy Efficient Hand Dryer

For those who want it all in a simple design, SMARTdri is a wise choice. It dries hands in as little as 10 seconds. It's energy-efficient, durable, hygienic, and flexible. Users appreciate the touchless sensor operation, warm airflow, and quiet sound quality. Facility managers appreciate the flexibility with control options suitable for any environment. And while it may be compact, you can expect it to withstand a high-demand environment.

VMax® V2 – High Speed, Energy Efficient “Hands In” Dryer with HEPA Filter

The improved VMax V2 now lasts two times longer thanks to its new brushless DC motor. Its vertical hands-in drying cavity is 25-percent wider than the competition. Meanwhile, its HEPA filter captures 99.97% of particles, 0.3um or larger before air reaches hands. It also includes a water tray to keep water from pooling on the floor. The smart LED display indicates when it's time to empty the water tray and change the HEPA filter. It's a low maintenance solution for you and your employees and a sanitary solution for all users.

High-Speed Hand Dryers *(continued)*

eXtremeAir® Series

Building owners can choose between the GXT or EXT. Both models blow the competition away in user comfort and energy efficiency; each has a slight edge over the other. GXT features heated air comfort while the EXT delivers better energy efficiency and cost per use. Both hand dryers accommodate restrooms limited in space. Sound and speed can be adjusted to fit the environment, as well.

Traditional Hand Dryers

World Dryer's traditional high-speed hand dryers are known for their durability. They offer classic solutions for those facilities seeking an economical hand dryer with quiet operation, heated air, and automatic or push-button activation options. These standard speed hand dryers stand the test of time while delivering a superior hand drying experience.

AirMax® – High-Speed Traditional Hand Dryer

The AirMax Series hand dryers are the industry standard for traditional high-speed hand dryers. Their installation is suitable for high traffic facilities thanks to its fast 15 second dry time and vandal-resistant construction. Its advanced technology uses up to 50% less energy than conventional models and features both a push button and a touchless activation option.

NOVA Series – Traditional Hand Dryer

The NOVA Series offers a sensible solution with a variety of options: Nova 1 (hardwire), Nova 1 (Plug-in), Nova 2, Nova 4, and Nova 5. The Series features both a push button and a touchless activation option and operates at a quieter sound level while drying hands in as little as 30 seconds. The durable construction withstands vandalism, and narrow design saves space. It's an economical solution for low and medium traffic commercial restrooms.

Baby Changing Stations

Hygienic, Modern Baby Changing Stations with One-Handed Adjustable Safety Belt, and Bag Hooks

For parents in transit, install convenience and stability in your environment. Your customers will appreciate a private, secured place to change their child, tucked away from foot traffic, and positioned at an accessible height. When the commercial project calls for an infant changing table, DryBaby is the smart solution.

DryBaby – Brushed S/S Horizontal Surface Mounted

Secure and hygienic, the DryBaby Diaper Changing Station does more than just accommodate the parents and caregivers of infants and toddlers. With its sanitary bed liner dispenser, one-handed adjustable safety belt, and bag hooks on both sides, this surface-mounted baby changing table provides peace of mind to its users. The ABC-300HS opens horizontally, the position preferred by users, and extends 13 ½ inches beyond the wall when open. Its durable, polyethylene interior is easy to clean, and it folds shut and latches to optimize space. Its modern brushed stainless-steel exterior will complement any restroom décor.

Adaptor Plate

Ready to upgrade your paper towel dispenser or old hand dryer? This stainless steel adaptor plate makes it simple and makes a statement. Large enough to cover your former equipment, you'll achieve a cleaner and more comfortable environment for guests and customers while reducing moisture and wall drips.

DESCRIPTION	FOR USE WITH MODEL FAMILY	MODEL
Adaptor Plate, Brushed S/S	eXtremeAIR GXT, EXT Advantage AD Global GX	AP

Retrofit Kit

Retrofit kit aesthetically covers a recessed World Dryer Model A or AirMax box that you want to convert to a surface mount dryer. A bracket and cover plate (pre-set up for a World Dryer SLIMdri) are included for a quick upgrade.

DESCRIPTION	FOR USE WITH MODEL FAMILY	MODEL
Retrofit Kit, Brushed S/S	SLIMdri	17-10160K

Adaptor Kit

Make installing your new hand dryer a breeze with this adaptor kit. It's compatible with VERDEdri hand dryers and an ideal solution when top-entry electrical connections are required. The adaptor kit is featured in a stainless steel brushed finish. Building owners and contractors will appreciate the quick installation benefits the adaptor kit offers.

DESCRIPTION	FOR USE WITH MODEL FAMILY	MODEL
Optional Top Entry Adapter Kit, Brushed S/S	VERDEdri	17-10504K

Coarse Filter Replacement

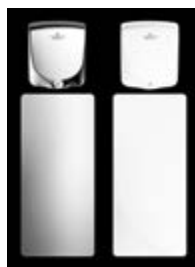

The coarse filter is a more economical filter option and promotes longer service life by eliminating debris from entering into the dryer's internal components. Building owners can choose a coarse accessory filter for the next-gen VERDEdri models.

DESCRIPTION	FOR USE WITH MODEL FAMILY	MODEL
Coarse Filter	VERDEdri	93-10496

HEPA Filtration System Replacement

The HEPA (high-efficiency particulate air) filter replacement for World Dryer's VERDEdri and VMax V2 hand dryers will keep the installation operating at an ultra-hygienic level for longer. HEPA filtration removes a minimum of 99.97 percent of contaminants 0.3 microns or larger in size from the air. The HEPA filter reduces particles in the air when hand drying for an elevated user experience.

DESCRIPTION	FOR USE WITH MODEL FAMILY	MODEL
HEPA Filter	VERDEdri	93-10293K
HEPA Filter with Odor Neutralizing Tablet (1pk)	VMax V2	93-10385

Flat Wall Guards

Recess Kits

Adaptor Plate
