World Dryer’s airforce dries hands quickly using ambient technology...and considerably less energy. The multiport nozzle offers an extra level of comfort and control.

Building owners can install multiple dryers on a single circuit to reduce costs upfront, while the easy-to-maintain design saves even more over time.

Antimicrobial technology helps promote a cleaner environment. Its intuitive touchless activation takes sanitation one step further.

The airforce hand dryer delivers high performance without the additional energy, maintenance or manual operation.

- **Fast Dry Time**
  Effective airflow dries hands thoroughly in 12 seconds.

- **Ambient Temperature**
  Uses up to 80% less energy than conventional hand dryers.

- **Cleaner Environment**
  Antimicrobial technology protects the dryer by inhibiting the growth of bacteria, mold and fungus that can cause stains, odors or deterioration.

- **Exclusive Design**
  Compact size fits within confined environments. Modular design offers easier maintenance, reducing downtime.

Multiple port diffuser nozzle maximizes drying effectiveness and comfort.
Choose an airforce design for your restroom environment. World Dryer puts visionary products within arm’s reach.

1 Protects the treated surfaces on the dryer by inhibiting the growth of bacteria, mold and fungus that can cause stains, odors or deterioration.
